REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Holderness:

In this, my fourth annual report, the following topics are briefly considered:

- (a) Statistics of our schools.
 - (b) Results of standardized tests.
 - (c) Prospects for eighth grade graduation.
 - (d) Acknowledgment.
 - (e) Recommendations for 1938-1939.
-

STATISTICAL TABLE
For the Year Ending June 30, 1937

School and Teacher	Number Half-days School in Session	Total Enroll- ment	Number Pupils (Average Member- ship)	Percent of Attend- ance	Number Tardi- nesses per Pupil	Number Pupils Not Absent or Tardy
Carr School (Nina A. Taylor)	358	26	17.8	90.2	1.9	0
Elm School (Dorothy Davis)	358	16	11.4	94.7	2.7	0
East School (Edith Plant)	358	17	16.8	90.3	5.5	0
Bridge School (Dorothy Morton)	356	32	26.8	90.7	0.6	0
All Holderness (Average or Total)	357.5	91	72.8	91.1	2.3	0
State of N. H. (Average)	353.4	94.7	0.9

The foregoing table shows, as last year, an inexcusably large number of tardinesses in the East Holderness school, and a record for two other schools that is far inferior to the average for the State in this respect.

The enrollment at the Elm school at the present time has dropped to six pupils. Unless more pupils move into that district before next September, it may be decided to close the school and transport the pupils elsewhere.

Standardized Tests

For two years, standardized tests have been given once or twice a year to determine the proficiency of our pupils as compared with those elsewhere. Results show

that our schools do their best work in arithmetic and reading, but obtain somewhat lower scores in language, especially in spelling. Special efforts this year are being made to reteach the ancient art of sounding letters and groups of letters. Specialists have told us that this kind of training has been overdone, and that such over-emphasis has caused poor results in learning to read. Evidently our pupils' reading has improved, but at the cost of some loss in ability to spell correctly.

Prospects for Eighth Grade Graduation

As Holderness has only one pupil in the eighth grade at the present time, it is not certain that graduation exercises will be held in the usual way. Perhaps a union of our exercises with those of some nearby town, such as Center Harbor or Ashland, would be appropriate.

Acknowledgments

As usual there are many friends of our schools to whom we are grateful for assistance in transportation to picnics, for the loan or gift to the schools of various articles, and for their obliging services in numerous other ways. We would especially mention the Christmas party given to the Elm and Carr school pupils by the Holderness School for Boys, and the usual annual prize speaking contest sponsored by Mount Livermore Grange.

Recommendations for Next Year

Unless enrollment increases, I believe the Elm school should be closed next year.

As hard surfaced roads creep nearer and nearer each year to our rural homes, we find ourselves in possession of advantages which a few years ago were thought impossible. It is becoming more and more common for people in rural sections to demand the advantages of a centralized school for their children. The maintenance of such a system, after a suitable building is provided, costs no more than the continuation of a number of one-room schools.

Last year at the district meeting a committee was appointed to look into this matter. Their report, presented at an adjourned meeting early in the summer, indicated the expectation that at some time a few years hence, Holderness would undoubtedly adopt a plan of centralizing its schools. It would seem worth while for a committee to be authorized to study this question more thoroughly as applied to Holderness, especially with reference to the cost, and report at the district meeting in 1939.

Respectfully submitted,
ALMON W. BUSHNELL,
Superintendent.

REPORT OF SCHOOL NURSE

It is a pleasure to present the following report to the citizens of Holderness. This statement covers work done from September, 1936, to July, 1937.

Number of children examined	73
Number of children found needing glasses	3
Number provided with glasses	2
Number of children receiving treatment for deafness	1
Number found with deafness	2
Number definitely under weight	10
Number found with heart trouble	4
Number found with poor posture	9
Number showing anaemic condition	8
Number having dental defects	11
Number having diseased tonsils	22
Number showing enlarged cervical glands	22
Visits made to schools	67
Visits made to homes	58
Cases of measles found	54
Cases of mumps found	12

The following is a report of dental work done by group appointment in Dr. Pottle's office and in Dr. Kaplan's office in Ashland:

Pupils examined	33
Pupils treated	31
Pupils having all work completed	24

Cleanings done	14
Temporary teeth extracted	27
Permanent teeth extracted	2
Cement fillings made	3
Amalgam fillings made	37
Pupils given gas	4
Total operations	177

Generous contributions from the Red Cross made some of the work possible. Thanks are also due the Red Cross for paying for a tonsilectomy and one pair of glasses.

Many of the children need continuous medical attention to build up rather frail physiques. It is hoped that cod liver oil may be made available to all pupils another year.

It is also the earnest desire of the school nurse that every child have an examination by the dentist at least once each year during the time the dentists are co-operating with us at a reduced clinic rate.

Thanks are due those who have so generously supported our work and made possible correction of so many handicaps.

Respectfully submitted,

EVA NELSON,
School Nurse.
